On April 6, 2020 U Market's software (Jaggaer) was updated to version 20.1. The new version has a redesigned user interface, which changes the color scheme and reorganizes the top toolbar. Please see below for a few minor, yet notable, changes.

1. **REORGANIZED TOOLBAR**
   
   The icons in the toolbar in the top right-hand corner are now in a different order. Also, the "Bookmarks" icon has changed from a star to a heart.

2. **PROFILE / NAME DROP-DOWN**
   
   In the previous version of U Market, your name was displayed in the upper-right hand corner of the screen. Your name is now replaced with a profile icon.

   Click the icon for the drop-down menu to access or update your profile information, such as your name or phone number.

3. **ACTION ITEMS ALERTS**
   
   In the previous version of U Market, the number of your action items was displayed next to a flag icon in the upper-right hand corner of the screen.

   This number will no longer be displayed. Instead, a blue dot next to the flag will appear whenever you have ANY action items.

   Click the flag to see a list of your action items.
