1. After logging into U Market, hover over the “Shop” icon on the left side of the screen. Then select “My Carts and Orders” and “View Carts” from the pop-up menu.

2. Within this page make sure the “Draft Carts” tab is selected on the upper-left side of the screen.

3. You should now see a list with any draft carts you have created in the past. To delete one, click on the downward-facing arrow next to the button labeled “View.” Then click “Delete.”

4. That’s it! Repeat this process until you’ve deleted all the carts you no longer need. If you’re having trouble deleting a cart or have any other questions don’t hesitate to contact U Market Customer Support. Just call 612-624-4878 or email ums@umn.edu for assistance.
